

GRADUATE BUSINESS PROGRAMS

NOTEBOOK COMPUTER SYSTEM REQUIREMENTS

The Mount Vernon Nazarene University graduate business programs require that each student provide a notebook computer to supplement their educational experience while in the MSM, MSM-HCA or MBA program. The following list should be used as a minimal guideline for students when selecting a computer.

It is required that your computer be kept current with the latest Microsoft security updates and patches and that an Anti-Virus program is installed and updated regularly.

- Microsoft Office XP (also known as 2002) or newer (Microsoft Word, Excel and PowerPoint)
- Microsoft Windows XP or newer
- Intel or AMD processor 1GHz or faster
- Minimum of 512 MB of RAM with 1 GB of RAM suggested
- DVD-Rom Drive
- Network Interface Card (NIC) and Category 5 Network Cable
- Internet access
- If purchasing a new computer purchase at least a 2 year warranty.

I have received and reviewed the computer guidelines for the graduate business programs and currently have or will have a notebook computer that meets these requirements by the first night of class.
