Synopsis: Hispanics are now the largest minority in the USA. There are more Latinos in the United States than all the people in Canada. Do we see them? Have we passed them by? What would we do if Latinos came to our church? Will we be Christ to them? These are difficult questions that will be addressed in this workshop. Practical and helpful suggestions will be shared for those just beginning Hispanic ministries and for those who are already reaching the Latino community.

What do you need the most? We want to customize this workshop to meet your needs!
