## ACT Review Course Content.

We have spent 20 years researching and developing our proprietary course materials. The four subject areas on the ACT test are reviewed. Considerable attention is given to math and English skills. Students will receive an ACT Review course book along with memorization sheets and worksheets. These materials give examples and explanations; they have over 1500 drills for students to work. Additionally, practice ACT tests will be emailed to students. Much of the information given in this course can also be utilized to excel on the SAT and PSAT.

## Credible Instructor.

Unlike most test preparation providers, our course is taught by a tenured Capital University professor, Dr. Lynn Dailey. Lynn holds the prestigious Moor Endowed Chair for excellence in teaching and scholarship and excels on the ACT.

## Dates, Times, and Location.
